

Thank you for hosting a Comfy In Your Country Welcome Party!

How To Host

- Pick A Date - Schedule a date and time.
 - Choose A Location - Your home, community space and restaurants are great options! Or Make It A Cyber Party.
 - Get Comfy - The point of the party is to feel welcome and wanted in your country, so plan an atmosphere of cozy and chill.
 - Decorate - This is your party and you know your guests. Do it up your way.
 - Invite Guests - Personally calling and inviting people is the most fun, but you can also send an Evite. See "Invitations" on MeThePeopleVote.com
 - Food & Snacks - If at a venue, select from their menu. If hosting at home, order take-out, make your favorite dishes or have a potluck. Remember to be conscious of dietary/allergy restrictions.
- NOTE:** If desired, provide cupcakes, cake or pastries to pass out before playing video #5 "How To Have A Political Conversation Without Bloodshed".
- Party Itinerary - Download the "Party Itinerary" at MeThePeopleVote.com. Do a dry run, know what to expect so your party runs smoothly.
 - Share Your Experience - Take a group photo and please share it on social media along with a note about your experience.
